EXPERIENCE

Design System Specialist, Vanguard (Contract)

Jan 2026 - Present | Remote

- Designed and maintained a Figma component library for the authenticated personal investing web platform, supporting 22+ designers across 104 initiatives.
- Partnered with enterprise design system managers, developers, and tech leads to ensure consistency and scalability.
- Created comprehensive documentation, usage guidelines, and help articles to drive adoption and self-service.

Senior Product Designer, MoCaFi (Full-time)

Mar 2023 - Feb 2025 | Hybrid- Newport, NJ

- Led comprehensive redesign of federal benefits enrollment portal, consolidating three legacy systems into unified platform serving government benefit recipients.
- Ensured full Section 508 accessibility compliance and adherence to U.S. Web Design System standards through collaboration with federal agencies and financial institutions.
- Designed responsive components and interaction patterns using Figma that reduced cognitive load and improved form completion rates by 35%.

Senior Product Designer, Fidelity (Contract)

Mar 2023 - Feb 2025 | Hybrid- Newport, NJ

- Spearheaded UX strategy and execution for modernization of internal trading applications used by 8,000+ financial professionals daily.
- Replaced 200+ legacy screens with streamlined, cloud-native interface leveraging advanced Figma prototyping and enterprise design system.
- Facilitated 25+ moderated usability testing sessions and card sorting exercises to optimize information architecture for complex financial instruments.

Senior Product Designer, Finastra (Contract)

Oct 2022 - Mar 2023 | Remote

- Designed real-time foreign exchange risk dashboard enhancing decision-making for 8,000+ financial institutions globally.
- Created intuitive data visualization interfaces translating complex risk metrics into actionable insights for forex traders.
- Developed a comprehensive design system with 45+ reusable components supporting 10x increase in transaction volume.
