WORK EXPERIENCE

MoCaFi- Sr. UX Designer, Full-time (Feb 2025-Aug 2025)

Designed a benefits enrollment portal serving over 3.4M users, replacing 3 legacy systems and reducing support calls by 40%. Crafted landing pages for a major federal benefits provider to improve usability and accessibility.

MoCaFi- Sr. UX Designer, Contract (Mar 2023-Feb 2025)

Led redesign of cloud-based trading tools, replacing 200 legacy screens and reducing operational costs. Improved task workflows for over 8K associates, increasing user adoption by 50% with 178 DAUs.

Finastra, Sr. UX Designer, Contract (Oct 2022-Mar 2023)

Designed a DV01 foreign exchange risk dashboard used by over 8K institutions. Enhanced the Kondor 3.5 suite with forex tools, increasing transaction volume by 10x. Created a unified design system with updated architecture.

Capital One- Sr. UX Designer, Contract (Dec 2021-Sep 2022)

Created a reusable credit outcome template for over 20 retail partners. Delivered end-to-end workflows for retail credit programs across web, mobile and POS touchpoints. Streamlined applications for retail partners including BJ's Wholesale, Menards, Saks Fifth and Bass Pro Club.

Finix-UX Lead, Contract (Mar 2021-Dec 2021)

Rebuilt SaaS payment platform for over 12K merchants, improving usability and onboarding speed. Built a unified and scalable design system that led to consistency across experiences. Designed for new applications including merchant onboarding, underwriting, subscription billing, frauds and disputes.

Neuragenie-UX Lead, Full-time (May 2020-Mar 2021)

0-1 design conversational search platform with social features and monetization tools. Witnessed over 100 signups on alpha release within 6 months.

Equifax- UX Designer, Contract (Aug 2019-Feb 2020)

Redesigned and maintained Workforce Solutions web pages for over 70 clients. Created wireframes, prototypes, and optimized CMS components for web pages including the Workforce Wise podcast.

Wells Fargo- UX Designer, Contract (Aug 2017-Jul 2019)

Designed a client portfolio dashboard used by over 12K financial advisors. Replaced over 10 disjointed legacy applications with a unified dashboard. Provided wireframes, high-fidelity designs, UI components, documentation, and QA.
